WINNIPEG, June 15, 1893.  
The laborers on the Soo Canal are on a strike.

A case of cholera developed near Quebec on the steamer Labrador.

The attendance at the World's fair is now large and the fair is paying.

Mrs. Vanklecker, of Quebec, gave birth to four children, two boys and two girls.

The lawyers in Spain have struck because the government has abolished district criminal courts to save money.

Clause three of the home rule bill has been finally passed and the balance will be passed through rapidly.

For expressing certain radical views on religion, Rev. Dr. Campbell, of Montreal will be prosecuted for heresy.

VanHorne says that the mineral wealth of the Kootenay country is incomparable. There is nothing like it on the continent.

Convicts mutinied near Cairo, Egypt, and shot a number of their guards. Other guards fired on the convicts, killing many.

An Indian band on the Leech Lake reservation, Minnesota, are obstreperous, and troops have been sent forward to quell the disturbance.

Reported in Montreal that a syndicate composed of United States and Canadian capitalists are trying to secure control of the Grand Trunk. Duncan McIntyre is in England negotiating the deal. The head office will be transferred to Montreal.

## LOCAL.

TRAINS one and a half hours late to-day. RAIN again on Tuesday and Tuesday night, making the roads very muddy.

Mrs. Jas. McDonald has a white window rose in bloom the flower of which is four inches in diameter.

THE Regina Leader mentions approvingly that the police are to be allowed to wear soft felt hats when on duty.

J. H. GARIEPY, late of Montreal, will open his general store on Monday in his new building on the corner opposite the Imperial Bank.

A BICYCLE club was organized in Edmonton on Monday evening with G. R. F. Kirkpatrick honorary president; P. L. McNameara president and J. Stovel captain.

At the anniversary exercises of Acadia university, Wolfville, Nova Scotia, on June 1st, C. M. Woodworth, barrister of this town received the degree of M. A. in course.

THE first vessel of the new Australian Canadian steamship line arrived at Vancouver from Sidney on June 8th. A part of her cargo was butter and frozen mutton.

P. McDermott has purchased the interest of Stanley McPhadden in the livery business formerly owned by the firm of McPhadden & Bangs. The firm is now Bangs & McDermott.

F. MARIAGGI of the Alberta hotel brought the BULLETIN yesterday a well grown cucumber seven inches in length, the product of his greenhouse. Mr. Mariaggi has laid out a most tasty garden in what was formerly the back yard of the hotel, and it is thriving wonderfully under his personal care.

A MEETING of prominent residents of the provincial district of Saskatchewan was held at Prince Albert on May 31st at which a resolution was passed regarding the erection of Saskatchewan into a territory or province under a separate local government and asking the representatives of Saskatchewan in the assembly to work towards that end.

A SASKATCHEWAN company has been formed in British Columbia to work on Kanaka bar on the Fraser river, with a steam section dredge. This is probably the kind of dredge that was used on the Saskatchewan some years ago, without valuable result. But the conditions may be more favorable on the Fraser.

A. LUCAS, mayor of Calgary, paid Edmonton a flying visit on Monday's train. He came up to see if the mayor of Edmonton would join him in a trip to Ottawa for the purpose of having the question of immigration rates adjusted in accordance with the promises of the government, as he feels that great injury is being done the country by the raising of immigrant rates from Washington to two cents a mile after the promise of a cent a mile rate having been definitely made.

THE Daily News and Times of Grafton, North Dakota, has the following regarding the impressions of a gentleman of that town who recently visited Edmonton: "In conversation with Billy Herriot as regards his trip to the Northwest Territory he declares that the season was fully two weeks ahead of North Dakota, the birds were mating, the trees were budding, the flowers blooming and the brooks warbling their sweetest warbles when he left there. The wheat was sown and most of it three inches above ground and small grains in equal proportion only, however, the very richest of the rich farmers were planting and transplanting apple trees. He thinks in some instances it has natural advantages over North Dakota and in many it is inferior. He seems to try and be impartial about the matter and gave the facts as he can judge them."

Dr. W. H. True of San Francisco, who extracts teeth, corns and warts without pain and cures all the ills that flesh is heir to as well with neatness and despatch, has been so captivated with the agricultural advantages of the Edmonton district that he has determined to go into farming here.

During his visit last summer he purchased a half section of land two miles west of town, from the C. P. R. This year he has increased his area to a section and a quarter and rented an adjoining half section on which he has put 40 acres of crop, besides doing a large amount of fencing and breaking on his own place. He will be leaving in a few days, continuing his usual professional tour, and is prepared to champion the cause of immigration to Edmonton wherever he may go. The doctor is a man of the greatest energy and judging by his investments he is an enthusiast in regard to Edmonton. He is willing to distribute literature regarding this town and district in the course of his travels, and certainly should be kept well supplied with it.

A post office savings bank will be established at Edmonton July 1st.

Beck & McNamara have been informed by telegram from their Regina agents that the appeals from the decisions of Judge Rouleau in the case of the town against Brown & Curry and Wm. Macdonnell & Co. against the deputy sheriff (indemnified by Norris & Carey) have been dismissed with costs. These cases were argued at the sittings of the court en banc just concluded, by S. S. Taylor for the appellants and N. D. Beck for the respondents.

THE creditors of the Manitoba Northwest railway who are closing out the present company are the Allans of Montreal of the great steamship line. It was generally supposed that they were the company, and the fact that they are not will be news to most people. No doubt the present move is with a view to their assuming ownership, and is very likely a put up job. It is just possible that the exceeding great yearning of the C. P. R. for a fast Atlantic steamship service may have the effect of giving the Northwest a live competing railway—and it may be that the present move is only with a view of increasing the already stupendous C. P. R. monopoly by adding to it the Allan line.

C. E. BEVINGTON and family arrived from Creighton, Nebraska on Monday's train. Mr. Bevington is one of the first Nebraska party who came up last July with H. H. Smith. He left Creighton on June 7th and made a quick trip through, especially considering that he was delayed two days on the way. The season is quite as far advanced at Edmonton as in Nebraska, when Mr. Bevington left. On the day he left, a herd of 200 head of cattle, 65 horses, 80 ewes and 150 lambs were driven through Creighton on their way to Gretna, where they will be put on the train for Old's station. Mr. Smith is doing good work for the Northwest in Nebraska and will leave for the Territories with a large party on July 15th.

ADAM BOYLE, a miner well up in years who came from Battleford some years ago, and has been mining on the river this spring came down to town on Saturday last, and reported that he had struck a particularly good streak of pay dirt, on which he could use an hydraulic. Whether this was mere fancy or not is not yet known, but as the old man talked with one and another of his kind, his projects for working it and at last what use he would make of the gold when dug out, it became apparent that his mind was affected. What at first was counted in dollars became hundreds by noon and by night was thousands. On Monday it had increased to millions. At last on Monday evening he was arrested by the police on a warrant, and sent to Fort Saskatchewan for safe keeping. He has been in the west most of his life and is a very quiet and well informed man. He has two daughters at St. Albert attending the convent school there. These are his only known relatives in the country.

J. B. SPURR of the Emerson, Manitoba, Times visited Edmonton a few weeks ago on his return from the coast with the press excursion. In the issue of the Times of June 8th, he gives his impressions of the country along the C. & E. railway line and of the towns as well. Mr. Spurr has taken a fair and favorable view of all he saw. Edmonton receives a particularly good send off at his hands. After giving a very full description of the region around Edmonton he says: "Such are the advantages of the Edmonton district. The town is lighted by electricity, has two brass bands, fraternal societies, and all kinds of business places. Lots on the Main street sell from \$800 to \$1200 and on the side streets from \$300 to \$450. Rents are very high, small tenement houses renting for \$25 per month and upwards. Living is a trifle more than in Manitoba; but in the main is about the same. The Calgary and Edmonton railway have within the past week reduced the rate on this line 10 per cent, so that goods should now be purchased at about the same rates as in Calgary. This country is without doubt the pick of the Northwest. For mixed farming it is unexcelled. It lies contiguous to the British Columbia market and has all the advantages for commercial prosperity. Brick, stone, lumber, coal, water, climate and fine grazing lands make this a desirable place for residence, and fortunate is he who speedily casts in his lot with the many happy farmers who are now busy in its development."

E. E. SHEPPARD of Toronto Saturday Night, recently made a trip through the Northwest to British Columbia and has since been giving his impressions through his paper. Mr. Sheppard sees the Northwest as no other eastern writer has ever seen it. He sees it as do the people who have struck out into the wilderness and who have staked their money, their labor, their time and their lives on their ability to make it such as they have dreamed it would become. On the question of winter Mr. Sheppard says: True, there is a winter. In what land, in what life is there no winter? It has been my privilege to see the everglades and bayous of the South, where great trees festooned with the beautiful vegetable parasites make brilliant the low landscape where nature seems to spend the wealth of her resources. I have hunted and fished in jungles and tangles where flowers hung like a mist in one's face, where orchids and sunnies tangled about one's throat, yet these sunny lands so rich in vegetation are harder to reach than the forests of Ontario and are not richer in soil than the prairies of the West. Nature do not fall offener nor does the sun smile more sweetly on such lands than on the prairies of Manitoba and Alberta. They lack the restfulness of the winter, the healthfulness of the northern climate; cattle do not grow as large, sheep are not as suited to the climate, horses degenerate into ponies and men sleep themselves away. In a north land such as we possess a man's full capacity is taxed to care for a season which comes with great rigor, his energies are not dulled by the climatic stupor which overcomes even the most vigorous when they settle in southern lands. Man must work or he must die. In the south he need not work, and not working he may not die; at least he shall not freeze, but having no better alternative he sees no reason why he should work. In our country a man must work or perish, but working he may grow rich; at least he can attain a competence.

RETURN cricket match on Saturday at 11 a. m., between Edmonton and Fort Saskatchewan.

HOWEY Bros., butchers, have dissolved partnership. W. R. Howey will continue business.

K. A. McLeod's new planing mill will start work to-morrow morning. Steam will be started to-day.

Regina Leader, June 8: This morning the executive committee appointed his lordship the bishop of Saskatchewan and Calgary; the Rev. Father Caron, of Regina; Mr. A. E. Forget, assistant commissioner of Indian affairs, Regina; and principal Smith, of Moosomin union school, to the appointments on the council of public instruction created by the school ordinance of last session.

THE Canadian Magazine for June is an excellent number, well illustrated, and in every way creditable to Canadian literary enterprise. "The Behring Sea Question," by Z. A. Lash, the eminent Q. C., is a timely review of the arbitration proceedings in Paris. Illustrated articles are: "Dak to Peshawar," a lively description by A. H. Morrison of a journey from Lahore to the Khyber Pass; "The Women of the United States," by Cecil Logsdail, and "The Nickel Region of Ontario," an interesting description of the recent mineralogical developments in the Algoma and Nipissing Districts. "A Rare Specimen," a Canadian personal sketch, by J. H. Stevenson; "Women and Money," by Ella S. Atkinson; "Aspects of Lake Ontario," by John Hague, F.R.S.S., and another of Henry Lye's "Tales of Wayside Inns," are charmingly written and decidedly interesting. A number of short poems are given. The Magazine well fulfils its purpose as a national review, and as a vehicle for the best Canadian thought, and well deserves to be ranked in general interest with the best on this continent. It is published by the Ontario Publishing Co., Ltd., at the head of which is Hon. J. C. Patterson, minister of militia, with Hon. Thos. Balantyne, speaker of the Ontario legislature, as one of the vice-presidents. \$2.50 per annum. 25 cents per single number.

EDMONTON BULLETIN JUNE 15th, 1893

## WINNIPEG EXHIBITION.

The Winnipeg Exhibition which opens on July 17th is worthy of more than the passing attention of the people of this district. The BULLETIN is of opinion that a creditable display at that exhibition and a good list of prizes which would be of more value to the district as an immigration agency and inducement for the investment of capital than an equal display and proportionate prizes at the great Chicago fair. For this reason, that at Chicago the mind of the sightseer is certain to become confused by the numbers of objects of interest to be seen. It is not at all likely that any exhibit that Edmonton could have made would have drawn the definite attention of any reasonable proportion of the throng. Besides, people go to the Chicago fair to see the show and not for business purposes, and besides the people whom we would want to come here and that we would be likely to secure are not the people who would be likely to take in the Chicago show. The case of the Winnipeg exhibition is altogether different. The competition will be between like products coming from different sections of the same country, and while the whole exhibit will show what the country can produce each competing exhibit will show the character and capability of the district which sent it. The Winnipeg show will not have the variety of that at Chicago. People know before hand that they will only see the products of an agricultural region, and only those who desire to see such products—for a purpose, and not mere curiosity—will attend. The attendance at the Winnipeg exhibition will be large enough to warrant the Edmonton district in making its best effort to show to the part of the world there assembled that this region deserves the favor with which it is regarded by immigrants to-day. Edmonton's strong point is dairying and an effort should certainly be put forth to show what we have done and can do in that line, by placing on exhibition both butter and cheese, as well as the grasses whose abundance and quality are the cause of the wonderful flow of rich milk which the district boasts. Another very strong point of this district is not only the quantity of oats raised per acre but the quality of the grain. Oats weigh much heavier here than almost anywhere else on the continent and an effort should be made to bring this fact prominently forward. It would help vastly to sell our next fall's surplus and the further surplus which is likely to increase in amount each succeeding fall. Although the date is rather early for vegetables, no doubt a showing can still be made from our gardens that would prove the superior richness of our soil and more favorable nature of our seasons such as cannot be done by any amount of bare assertion. There is every reason to believe that the Winnipeg fair will be attended by numerous large excursion parties from the States and from Ontario and this is the best opportunity that we will have for a year to bring our district and its superior advantages prominently before them. Even were it only attended by the people of Manitoba the effort would not be lost. The same reasons which are at work in the wheat districts of the Palouse and Red River Valleys starting people for Edmonton and mixed farming, are at work in Manitoba, and it is more than probable that a good appearance at Winnipeg would have its effect in inducing many of those who have found wheat farming unprofitable in Manitoba to cast in their lot with us. Although we have been very successful at Winnipeg so far we have never made such an offer as the present circumstances justify. This is a specially good season with us and we can afford to make a special effort to make the fact known where it will do us the most good.

ICE. Delivered by the undersigned, to all parts of town.

The place within the Territories which is to be its chief place of business is the Town of Edmonton, Alberta, N.W.T. The proposed amount of its capital stock is \$10,000; the number of shares 1,000 and the amount of each share \$10.00. The names in full and addresses and callings of each of the applicants are:—Alex. Anderson Taylor, Edmonton, N.W.T., post master, Eleanor Sophia Marsh, Edmonton, N.W.T., sister, and James Mitchell Taylor, Ottawa, Ontario, gentleman, all of whom are to be the first or provisional directors of the company.

Dated Edmonton, May 27th, 1893.

## CRICKET MEETING.

A very successful meeting was held on Monday night in the Jasper House, in order to reorganize the cricket club. Dr. Wilson occupied the chair. The affairs of last year's club were looked over and Messrs. Jellett and Bridges were appointed to go into the books with J. R. Michael late secretary and find out how the club stood. The following officers were elected: Dr. Wilson president, E. Looby vice-president, St. Geo. Jellett secretary-treasurer, Dr. Wilson captain, J. F. Adamson vice-captain. Managing committee, Dr. Wilson, J. F. Adamson, W. S. Edmonson, E. F. Slocock and A. Pattison. It was decided to make the membership fee \$2 and \$1 for members belonging to any other club. A challenge from Calgary was sent at the meeting asking if the Edmonton club could go to play at Calgary in their first week commencing 20th instant. The secretary was instructed to let them know Edmonton could not meet them then and no future date could at present be fixed upon. Mrs. Hardisty was elected patroness and A. Taylor patron of the club. Mondays, Wednesdays and Fridays will be the practice nights, and it is the intention of the club to arrange matches for every Saturday. More interest is being taken now in cricket than formerly and it is hoped this interest will continue.

## GENERAL NEWS.

Fargo, North Dakota, had a two and a half million dollar fire on June 6th.

Cholera has appeared at Narbonne in France. Over 70 deaths from cholera occurred in Mecca, Arabia, in one day.

Masson, M. P. for North Grey, Ontario, has informed the government of his intention to resign his seat in the house.

The recent small pox quarantine established at Winnipeg cost the city \$15,000. The Dominion government will be billed for the amount.

Medicine Hat Times: We have it on good authority that a change back to the old time table will be made on the C. P. R. about September next.

The United States federal courts have decided that the Chicago fair must be closed on Sunday. The decision will be supported by force of arms if necessary.

Reported that A. W. Ross, M. P., for Liasier, Manitoba, will become lieutenant governor of that province on the expiration of lieutenant governor Schultz's term.

Thomas Sexton, Irish M. P. for North Kerry will resign from parliament on account of a quarrel with his home rule colleagues, over the management of the Freeman's Journal.

The Michigan legislature has passed a compulsory transportation bill, requiring all railroads in the state to furnish free transportation to state officers, judges of the supreme court and members of the legislature.

The Bank of Spokane Falls, the Washington National, the Washington Savings, and the Citizens National, all of the city of Spokane, and the Palouse city bank of Polson city have all closed their doors within the past few days.

Popular opinion is authority for the statement that the mosquito is a sign of a good crop, the more mosquitoes the more wheat. If P. O. is right the prospect for the coming crop is something awful, and becoming better every day. —Hortney Star.

At a public meeting held in Toronto on June 8th it was stated that in that city there were women working in factories at \$1.30 a week. These are members of the working classes, who are told at every election that the chief end and aim of the protective policy is to provide and keep up wages.

Winnipeg Tribune: Grubs are reported to be doing considerable damage to wheat in some parts of the country. The Big Plain north of Carberry has had several fields destroyed. The damage is mostly confined to summer fallows that were allowed to grow up in weeds and so furnish a resting place for the larvae.

Morden Herald: Immigrants are trooping into Manitoba. A stalwart farmer came from Crystal, Dakota, through Morden on Wednesday, with a yoke of oxen and wagon containing his family and all his worldly goods. He was on his way to the Lake Dauphin country, and he stated that of his knowledge about forty other farmers were about to leave the same district for Manitoba.

Winnipeg, Commercial, June 10: The weather, though perhaps not as warm as the previous week, has been very favorable to the crops, and the outlook is very encouraging. Notwithstanding the late spring, the crops are generally understood to be in a more advanced state than at this date last year, as there have been no set-backs from frost or drought this season since vegetation started. The situation is therefore decidedly more hopeful than it was early in the season.

Free Press: Eight street car tickets for twenty-five cents. That is Mr. Austin's privilege in case he be given the usual electric privileges on certain streets. It is tempting certainly; but when we remember that the duty of the aldermen is to create all the monopolies they can and protect them against invasion, and that the interests of the public, which they are mistakenly supposed to guard, are the last thing to be considered, it will be seen at once that Mr. Austin's offer cannot be entertained. A board of aldermen was never known to stand up for the rights of the city against the claims of monopolists, contractors and such like. We had a mayor last year who tried it, and he narrowly escaped committing to the asylum as a first class lunatic.

The Winnipeg Commercial has an article favoring the inspection and grading of butter on the same plan as prevails regarding wheat. It says: An attempt has been made at a few points in Manitoba to grade butter, and it has worked well. An inspector is appointed, who grades the butter, the local dealers having first agreed among themselves to take the butter only upon inspection. This is of course, a purely local arrangement, and there is nothing official at all about the system. The difficulty to be encountered under this plan would no doubt be to secure a competent local man to act as inspector who was himself not a buyer of butter. At the town of Birtle, where this plan has been tried, three grades of butter are made. The price for No. 1 grade having been arrived at by agreement among the merchants, the price of No. 2 is made 2 cents lower than No. 1, and No. 3 quality is five cents lower than No. 1.

J. T. Blowsy is receiving and opening out an immense stock of furniture in his store, Robertson building, Main street.

Miss Marsh, sister-in-law of Alex. Taylor, postmaster, left for the east on Tuesday's train accompanied by Mr. Taylor's children.

G. R. F. Kirkpatrick, manager of the Imperial bank, and Mrs. Kirkpatrick left on Tuesday's train for the east, to remain away a couple of months.

Petroleum! PETROLEUM!  
For some months past it has been known that an important discovery of indications of Petroleum, had been made at Egg Lake, about 18 miles north-west of

Fort Saskatchewan

Some believed it and others did not. However, Mr. J. E. Tyrrell, of the Dominion Government Geological Survey, has visited the Lake, and satisfied himself that there are ample indications to warrant development operations being begun. (Vide Edmonton "Herald," of 1st Instant.) This being so—what do the Dominion and Territorial Governments, and also the Canadian Pacific Railway, propose doing about it? And when? All three are equally interested. It is the duty of every person in Northern Alberta to make the most of such an important discovery of mineral wealth in our district, and to keep things agitated until something is done to develop or are we all dead to the advantages to be gained?

# FROM PEACE RIVER.

Fred Brich of Peace River and P. M. Muller of Slave Lake arrived from the Landing on Wednesday to purchase and return with supplies. Last winter was very severe in Peace River and the snow was deep. The cold snap which was felt at Edmonton in the last week of January and the first week of February was even worse there than here. On one or two occasions the government thermometers registered 74 below zero and for eleven days the thermometer seldom went above 20 below. The rest of the winter was not particularly cold. Cattle wintered well, being stabled; and about 200 horses wintered out at H. B. Co's ranch at Spirit River. The chief harm done by the cold spell was that a considerable proportion of the potatoes were frozen. The Indians did not suffer seriously as there were plenty of rabbits which ensures abundance of food. The snow was later in going off than usual, but on account of the early and deep snow the ground was not frozen deeply and was ready for plowing as early as usual. Plowing began at Staffsby mission on April 28th. The river opened on May 5th. Rev. Mr. Brich, of Staffsby mission has planted 110 bushels of grain and 40 bushels of potatoes this season. A. Mackenzie of the same neighborhood has planted 55 bushels of wheat, and 7 families of half breeds or Indians settled near the mission have planted about six bushels of wheat a piece and ten to twenty bushels of potatoes each, besides garden vegetables. All crops and gardens look well and are well advanced. Miners are not doing much on the river this season and one or two who are there think of coming away. One is on the way in now with horses. On Slave river Messrs. Brich and Muller met two young Scotch men on the way to Peace river in a birch bark canoe. They had passed through Edmonton in March and so were making slow progress. A Mackenzie has a twelve horse power engine and small grist mill now on Slave lake on the way to Peace river. This mill will be of great assistance to those who are farming there. The disease amongst the Hudson's Bay Company's cattle is still at work and people are wondering why no action is taken by the government to protect healthy cattle and stamp out the disease. So far it has not spread beyond the company's herd. Messrs. Brich and Muller leave on Saturday for the Landing and home.

# TOWN COUNCIL.

**WEDNESDAY, July 14th.**

Communications were received from Beck & McNamara, re telephone system agreement; also re town vs. Brown & Curry. From A. G. Randall, asking grant for last of July sports. From the Ontario Mutual Life Association. N. William Smith, Hanson Bros. G. A. Stinson and H. O'Hara & Co., tendering for debentures.

Sanderson—Gallagher—moved that the board of works be instructed to draw up plans and specifications of sidewalks to be laid under petition No. 3, and call for tenders for the same, to be in by Wednesday next.

Strang—McLeod—moved that the clerk and solicitor prepare a telegram to the Ontario Mutual Life Association, and find out the meaning of their tender, and that all the tenders be referred to the finance committee with authority to accept the best, on receipt of an answer from the Ontario Mutual.

Sanderson—Strang—moved that the hour of sitting be hereafter moved to 11.30 p.m.

Goodridge—Gallagher—moved that the committee on sports for the 1st of July be given a grant of \$200.

Strang—McLeod—moved an amendment that \$150, being half the amount asked, be donated. The amendment carried.

Sanderson—Goodridge—moved that the communication of Beck & McNamara, re telephone system be referred to the fire, water and light committee, to consider a draft agreement and report at next meeting.

The finance committee reported. Pay sheet No. 6, board of works, \$ 7.50  
Pay sheet No. 7, grading, 52.00  
Reported paid treasurer on account 1892, 86.04  
In collectors hands account taxes 1892, 63.32

McDougall—Strang—moved that the report of the finance committee be adopted.

The board of works reported that petition No. 3 for sidewalks Jasper avenue to 1st street on the east side of Nanauy avenue and on the north side of First street to Kinistino avenue and thence to second street on the west side of Kinistino avenue was signed by the required number of owners and represented the required value, thus complying with the law as to frontage tax.

McLeod—Gallagher—moved that the report of the board of works be adopted.

The fire water and light committee presented plans and specifications of tanks for water supply for fire purposes and recommended that the same be accepted with all alterations as suggested.

Sanderson—Goodridge—moved that the report of the fire water and light committee be adopted.

Sanderson—McLeod—moved that the board of works be instructed to prepare plans and specifications for sidewalks on Fraser avenue and submit the same to the council at next meeting.

By-law No. 11 was read a 1st time and referred to the board of works committee.

Sanderson—Strang—moved that each of the committees be instructed to bring in a by-law to be submitted to the ratepayers for the purpose of paying for certain permanent improvements made last year.

McLeod—Sanderson—moved that the board of works be instructed to have brush piles burnt off lanes and streets.
